FULL MATRIX VIRTUAL SCORING

Nevco's full matrix virtual scoring solution is the perfect choice for facilities that entertain multiple sports. Compared to traditional scoreboards, full matrix virtual scoreboards offer the ability to display more sports-specific information for all sports played at the facility.

PLUS

Offers you the flexibility to communicate important events, excite your fans, highlight players, display statistics and promote sponsors.

VIRTUAL SCORING OPERATION

Nevco's virtual scoring solutions are designed to be both easy to install and easy to operate. Once the system is installed, all it takes is a quick click of the mouse to easily toggle back and forth between important scoring data in the scoreboard mode, to the in-game instant message function to excite the fans, or to the advertising playlists to promote your sponsors.
