

# LED AND STATIC SCORER'S TABLES

MAXIMIZE YOUR IMPACT<sup>SM</sup>

**N**evco scorer's tables are precisely engineered from top to bottom for maximum form and function. The table tops feature pre-drilled access holes and recessed drink cup holders on a wide laminated table top. The shatterproof laminated face plates, lockable casters, aluminum welded frames, heavy duty vinyl padding and built-in power receptacles are designed for year-after-year performance.

Indoor athletic venues and the overall game experience for fans, sponsors, coaches and players will be enhanced with the addition of a Nevco scorer's table. These tables are capable of displaying advertising, in-game animations, player profiles, statistical information and even virtual scoring. The Nevco LED scorer's tables are powered by the powerful Nevco Composer Software.

## LED SCORER'S TABLES

### Vibrant, Clear Color & Long-life LED Technology

- Exact color reproduction of images.
- Bright LEDs for maximum viewing.

## STATIC SCORER'S TABLES

### Free Standing Scorer's Table

- Designed to stand alone, away from the bleachers, using chairs for seating.
- With tabletop fully extended, this scorer's table stands 32" tall and measures 33" wide.

### Bleacher Mount Scorer's Table

- Designed to be used against, or installed in, bleachers.
- This table stands 41" tall and measures 33" wide with the tabletop fully extended.

## FULL MATRIX SCORER'S TABLES

- Ability to display scoring data from scoreboard control.
- Integrates with 3rd party statistical software.

Nevco scorer's tables are capable of displaying 3rd party software applications such as Stat Crew. This requires the additional purchase of Nevco's 3rd party integration package which includes Nevco Sports Composer software.

Nevco scorer's tables are also able to display virtual scoring data from a Nevco operators control. In order to enable this functionality you will need to request a Nevco LED Scorer's Table with a model number ending in " FM" (for full matrix display).
